

sfwork menu 2010

our latest range of services and topics for organisations

sfwork continues to lead the development and application of Solutions Focus (SF) approaches in the workplace. From our UK base Mark McKergow, Jenny Clarke and colleagues provide consultancy, training, coaching, keynote speeches, books and resources to leaders, managers, consultants and coaches on every continent. Developing our own models and applications means we know this approach inside-out. You can benefit from our experience in many ways.

Discovering SF

FREE Discover SF Webinars

One hour web/telephone sessions to help you and your colleagues find out about SF at first hand. Running through the year
